

Outdoor 320

The Stannah 320 Model outdoor straight stairlift is a truly outdoor model. Designed to withstand both hot and cold climates, it has a good track record in locations as diverse as New England and Hawaii. The chair is made of waterproof, UV-resistant durable plastic and sits on our rust-proof, slimline outdoor straight rail. Seat, footrest and padded arms, fold up easily for space saving convenience. A joystick style directional hand control makes it easy to glide effortlessly down or up to your outdoor space. Enjoy the outdoors again with the Stannah Outdoor stairlift.

Standard Features You'll Love

Landing controls allow the stairlift to be called or sent. A keyswitch can completely immobilize the stairlift to prevent unauthorized use.

Stairlifts for Straight Stairs

Stannah

Stairlifts for Straight Stairs

Starla 600

For a premium package, choose the 600 Starla, our most comfortable and customizable stairlift. The Starla has many upholstery colors to choose from, each available with wood trim. The Starla chair has a high, rounded back and a gently reclined seat, for added comfort. Complete with a powered footrest, and our silver or bronze slimline rail, the Starla 600 stairlift is an exceptional choice.

Starla Upholstery and Wood Trim Options (Wood trim is available with any Starla upholstery choice)

Siena 600

The Siena 600 offers many standard features including a powered footrest, extra-long folding armrests to help you get in and out of the chair, a gentle touch directional hand control and two remotes. Our wide seat in easy-clean vinyl upholstery has several color choices. The slimline rail, available in silver or bronze is suitable for narrow stairs. Optional features include a two-way powered swivel, and retractable rail.

Siena Upholstery Colors

Siena One

The Siena One, our economy model, comes standard with easy to clean walnut upholstery, light touch hand control, seatbelt and two remotes. The footrest folds with the seat. The slimline rail is finished in matte silver. Siena One offers all the basics without compromise in safety or reliability.

Standard Features You'll Love

Stannah's exceptional warranty and reliability will bring you peace of mind. Our thoughtfully designed key features make your Stannah stairlift safe and easy to use. Features below apply to all indoor models unless otherwise specified.

Easy-to-Use Controls

The light-touch control allows you to operate the stairlift with any part of your hand.

A Chair that Swivels

Turn to a safe position at the top or bottom of your stairs, with manual swivel levers, or optional one or two-way powered swivel.

Armrest Safety

For your safety, the downside armrest must be lowered before riding.

Safety Sensors

Stop the stairlift if it meets an obstruction.

350lb Weight Capacity

Keyed Lock (not shown)

Prevents unauthorized use.

Powered Footrest

For Starla and Siena 600, eliminates the need to bend over to unfold or fold the footrest.

Retractable Seatbelt

Easy to reach retractable seatbelt, requires only one hand to use (Starla & Siena 600).

Siena 600 Chair Width Options

Available in two width options depending upon your needs.

On/Off Switch

Conveniently placed, prevents the chair from moving unexpectedly.

Adjustable Seat Height

Set during installation for a comfortable and tailored fit.

Battery Operated

Automatically recharging, long-life batteries (not shown) keep your stairlift working in the event of a power outage.

Two Remotes

Call and send your stairlift or operate the powered swivel.

Power-On Light (not shown)

Options

Powered Swivel

The Stannah powered swivel turns the chair to face away from the stairs, for ease-of-use and safety. The powered swivel can be set to swivel at both the top and bottom of the stairs. Stannah offers the best installation solution when there is a door at the top of the stairs.

Retractable Rail

For straight stairs where the rail could be a tripping hazard at the bottom of the stairs, the Stannah retractable rail raises and lowers automatically as the chair moves up and down the stairs.

Seatbelt Options

Our lap-diagonal and five-point seatbelts provide extra restraint over the shoulders and between the legs.

Rudder Control

The rudder control option is helpful for those who may have difficulty with dexterity, for example due to severe arthritis or tremors.
